

Program: Master's in Computer Science

Applicant Name: Tilak Man Gubhaju

University: [Target University Name]

Country: [Target Country]

Technology has always intrigued me—especially its potential to solve complex real-world problems. My fascination began in high school and grew stronger during my undergraduate studies in Computer Science. I now aspire to deepen my expertise and gain global exposure by pursuing a Master's degree, which I believe is the next logical step in my academic and professional journey.

I completed my Bachelor's in Computer Science from [Your University Name], where I gained strong theoretical and practical knowledge in data structures, algorithms, and software development. Throughout my course, I worked on multiple academic projects, including a real-time bus tracking system. I also completed a summer internship at [Company Name], where I contributed to building a web-based inventory system—an experience that shaped my problem-solving mindset.

The curriculum at [University Name] offers a perfect blend of theory, hands-on research, and exposure to modern technologies like Artificial Intelligence and Data Science. What excites me most is the opportunity to work under esteemed faculty and use cutting-edge labs to explore my interests. The university's commitment to innovation, inclusivity, and global engagement aligns perfectly with my values and goals.

In the long term, I aim to become a software architect who designs scalable and impactful systems. My vision is to work at the intersection of technology and social good—developing tools that help small businesses, education, or healthcare systems thrive in developing countries. I believe this program will provide the technical depth and international outlook necessary for that vision.

With a solid academic foundation, internship experience, and a strong desire to contribute meaningfully to society through technology, I am confident that I will thrive in your program. I look forward to gaining new perspectives, collaborating with like-minded peers, and contributing to the dynamic academic environment at [University Name].
